APPLICATION FORM

In 2009 the Nigerian British Chamber of Commerce launched the NBCC–UK Network in London to provide a forum for British entities doing business in Nigeria and Nigerian business Diaspora in the UK. As a business grouping the NBCC- UK Network will be focussed on the challenges facing businesses today in Nigeria and the UK. Its' mission is to enable Nigerian based companies to have market access to business in the UK as well as UK based companies to have better and informed access to the Nigerian market. It also provides the means for both UK and Nigerian businesses to extend and expand their markets generally.

The Opportunity Nigeria™ conference is held every year as an integral part of the trade delegation to the UK and is a focal point of the NBCC year.
